Dear Lisa Agerton,

Facebook has recently shut down its Graph Search capabilities, which contained valuable tools to link people to places, posts, groups, etc. It was a feature page on Michael Bazzell's OSINT Tools section, NetBootCamp and other OSINT resources and training guides. Fortunately, there are quite a lot of people working to put new pages back up, a few of which are shared below

Face/Name Search on Facebook

The secret weapon for online investigation is WIST. WIST has a Face/Name Search feature which takes advantage of facial recognition, to quickly narrow down thousands of results that match on a name to a couple dozen that you can manually review easily.

Extract a 1000-page Facebook Timeline?

Yes, WIST can extract a 1000-page Facebook timeline automatically. Just point at the profile and extract. WIST can extract from Instagram as well.
